Clara del Cerro López

UI Engineer, Front-End Developer and UX/UI Designer

Location: Madrid, Spain
Phone: +34 677 644 272
Email: claradelcerrolopez@gmail.com
LinkedIn: https://www.linkedin.com/in/clara-del-cerro-lopez

Summary

UI Engineer and Front-End Developer with 8+ years of experience building accessible (WCAG), responsive and scalable web applications with Angular, TypeScript, JavaScript, Astro, HTML5 and SCSS/SASS. Experienced in design systems, reusable UI components, BEM methodology, REST API integration and headless CMS (Strapi). Applies AI-assisted development with Claude daily to accelerate delivery and improve code quality. Background in UX/UI and graphic design with hands-on Figma prototyping, enabling close collaboration with design, AI and development teams in Agile/Scrum environments. AI-assisted interface design (Claude Design) and freelance website development with WordPress and Elementor Pro.

Skills

- **Programming languages:** HTML5, CSS3, SCSS, SASS, LESS, JavaScript, TypeScript
- **Frameworks and CMS:** Angular, Astro, Strapi (headless CMS), Adobe Experience Manager (AEM), SharePoint, WordPress, Elementor Pro, Opencart
- **Front-end practices:** Design systems, reusable UI components, responsive design, web accessibility (WCAG), BEM, REST API integration, web analytics
- **AI tools:** AI-assisted development, AI-assisted design, Claude, Claude Design, Cursor
- **Tools:** Git, GitHub, Jira, Azure DevOps, Node.js, Gulp
- **Design:** UX/UI design, prototyping, Figma, Sketch, Adobe Photoshop, Illustrator, InDesign
- **Methodologies:** Agile, Scrum

Work Experience

Freelance UX/UI Designer and Web Developer

Marshal Box (freelance project) | Madrid, Spain (remote) | 08/2026 – Present

- Redesigning and building the complete Marshal Box website with WordPress and Elementor Pro.
- Design interfaces with AI (Claude Design) to explore visual directions and speed up prototyping.
- Designed, developed and launched the «Sentido Marshal» landing page.

UI Engineer and Front-End Developer

Decskill (client: Ávoris, travel and tourism group) | Madrid, Spain (remote) | 01/2026 – Present

- Develop and maintain the web interfaces of Ávoris digital products, working with AI, UX/UI and development teams.
- Contributed to 7+ web projects in a team of 22, including 6 front-end developers.
- Built web projects practically from scratch with Angular, Astro and Strapi within the defined architecture.
- Helped define the Strapi workflow for several projects and contributed to the Astro-based system.
- Use Astro extensively to build fast, content-driven web interfaces.
- Apply AI-assisted development with Claude to accelerate development, improve code quality and optimise workflows.
- Design and prototype interfaces with AI (Claude Design) before development.
- Create reusable, scalable UI components with responsive and accessible (WCAG) design.
- Integrate the front-end with Strapi headless CMS and manage content.

Front-End Developer, UI Engineer and UI Designer

Inetum | Madrid, Spain (remote) | 03/2022 – 01/2026

- Worked on 5 projects for public administration clients, creating pages and designs from scratch.
- Designed and developed web applications and corporate portals, from UX/UI design in Figma to implementation in Angular.
- Prototyped interfaces in Figma almost daily to validate flows and designs with the team before development.
- Implemented design systems and developed front-end layouts with Angular.
- Built SharePoint websites with HTML5, CSS3, SASS and JavaScript using BEM methodology.
- Ensured web accessibility compliance with WCAG.
- Managed version control with Git and project tracking with Jira.

UI Engineer and Front-End Developer

VASS (client: Repsol) | Madrid, Spain (remote) | 08/2021 – 02/2022

- Developed reusable front-end components for Repsol in Adobe Experience Manager (AEM) with HTML5, LESS and JavaScript.
- Implemented web analytics.
- Worked in Agile with project management in Azure DevOps and code management in Git.

Front-End Developer and UX/UI Designer

Solcom SL | Madrid, Spain (on-site and remote) | 09/2018 – 08/2021

- Designed and developed numerous web pages and components from scratch, mainly for Hyundai.
- Designed UX/UI for websites, landing pages and applications in Sketch.
- Prototyped and developed web pages with HTML5, SASS (BEM) and JavaScript.
- Managed content in AEM, Opencart and other CMS.
- Designed logos, leaflets and catalogues and edited photos with Adobe Creative Suite.
- Used Git, Gulp and Node.js in the development workflow.

Education

Master's Degree in Graphic Design and Digital Communication, CICE | 2018

Three-month internship in graphic design and content.

Higher Vocational Degree in Multiplatform Application Development (DAM) | IES Clara del Rey | 2014
One-year internship at CIEMAT.

Higher Technician in Audiovisual Image | IES Príncipe Felipe | 2013

Courses and Certifications

- Java EE 8 Front-End with Angular (v17), 2025: components, forms, services, routing, web services
- Scrum Master, Inetum, 2024
- HTML5, CSS and JavaScript, IBM

Languages

Spanish: Native | English: Intermediate (B1+), preparing for the TOEIC exam

Soft Skills

Communication, adaptability, time management, critical thinking, proactivity, teamwork
